

ASA Scholarship Mentoring Program 2020-21

The purpose of this program is to provide assistance to students. Listed below are guidelines from our Scholarship Committee for any company who is interested in mentoring

- ***Members of ASA***
 - Explain what your company does and what you do at your company
 - Get to know the student and learn their professional goals
 - Help them plan a path to reach any goals
- ***Provide your contact information to the student and keep a line of communication open with them***
 - Check in with the student at least once a month, preferably every two weeks
 - Teaching Life Skills as needed
 - They may have questions about something in school that they don't quite understand and you may be able to provide some insight
 - Ask how their grades are on tests or projects, provide encouragement and offer to help when needed
- ***Contact the school from time to time***
 - Make sure the student is putting in the effort and making progress. If the student is struggling, find ways to mentor them that will help them overcome their challenge
- ***Invite the student to your office or facility and***
 - Show them firsthand what it's like to work in your field
 - Introduce them to as many people possible and have them share what their job responsibilities are in the company
- ***If possible, invite the student to a job site***

- Students pursue a field that they are interested in but aren't always aware of the working conditions
- Spending time on a jobsite will open them up to real life experiences in the field
